

Daniyal

AI Automation Engineer | Python & Browser Automation Specialist

★ Los Angeles, CA ☎ +1 (234) 567-890 ✉ daniyal.ai@example.com [LinkedIn](#) [GitHub](#)

PROFESSIONAL SUMMARY

Highly skilled AI Automation Engineer with **5+ years** of experience designing, developing, and deploying robust web automation systems. Expert in **Python**, **browser automation** (Playwright, Selenium), and **AI integration** (OpenAI, Gemini). Proven track record of optimizing complex workflows and scaling AI-driven applications to improve operational efficiency.

CORE SKILLS

Languages	Python (Expert), JavaScript, SQL, Bash
Web Automation	Selenium WebDriver, Playwright, undetected-chromedriver
AI / ML	OpenAI API (GPT-4), Google Gemini, DeepSeek, Prompt Engineering
Backend & DB	Flask, FastAPI, SQLite, MongoDB
Tools	Git, Docker, LinkedIn API, BeautifulSoup, Scrapy
Environment	Linux, Windows Automation, CI/CD

PROFESSIONAL EXPERIENCE

Senior Automation Engineer | AI Solutions Corp

January 2021 – Present

- Engineered a modular LinkedIn automation engine that increased application rates by **300%** for candidate sourcing.
- Implemented **GPT-4 based prompt engineering** to automate complex job-form responses with **95% accuracy**.
- Optimized browser anti-detection mechanisms, significantly reducing account bans and session timeouts.
- Built a real-time dashboard using **Flask** to track automation success metrics and history.

Automation Developer | TechSync Systems

June 2018 – December 2020

- Developed automated testing suites using **Pytest** and **Selenium**, reducing manual QA time by **60%**.
- Integrated third-party APIs for automated data synchronization between CRM and recruitment platforms.
- Managed and maintained a fleet of automated browser workers in a headless Linux environment.

KEY PROJECTS

LinkedIn AI Auto Job Applier

- Built a comprehensive Python-based bot that searches, filters, and applies to jobs on LinkedIn.
- Integrated multiple AI providers (OpenAI, Gemini, DeepSeek) for dynamic field answering.
- Developed a modern SaaS-style web dashboard for real-time monitoring.

Automated Resume Extractor & Tailor

- Created a tool to scan job descriptions and automatically tailor PDFs to match required skills.
- Used **NLP** to identify and prioritize keywords for ATS (Applicant Tracking System) optimization.

EDUCATION

Bachelor of Science in Computer Science

State University of Technology

CERTIFICATIONS

- Professional Python Automation Specialist
- AI-Powered Software Development Certification
- Advanced Web Scraping & Anti-Detection Techniques
